

F. Scott Paul  
X: Rostow

31 October 1962

MEMORANDUM FOR: The DCI

VIA: The Executive Director

1. Paul Scott of Allen and Scott telephoned today to say that Mr. McCone ought to look up a classified paper on foreign policy which Mr. Rostow prepared and distributed within the Government sometime last January. According to Mr. Scott, the paper followed the line of don't humiliate the Soviet Union, maintain friendly contacts with them, etc.

2. Scott also claims that he has been informed that when Mr. Rostow recently spoke in Germany at the Free University, there is a question if he spoke for the President with the President's approval or on his own authority. He said it might be of value to the Director if he looked into what Communists, if any, Mr. Rostow saw while in Germany. He said he had nothing definite on this point. He also mentioned two CIA officials, one of whom he had referred to some time ago in a conversation with you, stating he felt they should be removed from their present position.

3. No action is recommended, and this is reported only because Scott asked that you be informed of these things, he apparently believing that he is doing a public service by reporting them to you, rather than putting them in his column.

Stanley J. Grogan  
Assistant to the Director
